

meet

Meetings — the organizing unit of our work lives — are at the heart of how we collaborate to achieve sustainable change. Yet, do you ever sit in meetings and wonder: Why am I here? Why are we talking about this (again)? Do you leave meetings regretful of the time spent, unclear about your next steps?

At Strelo Group, we believe meetings should courageously move work forward, build trust among team members, increase achievement of outcomes, and elevate productivity and joy in your work.

Imagine a world in which meetings are powerful problem-solving engines that fully engage the collective wisdom of your team members to fuel the change you seek. Strelo's **Powerful, Productive & Inclusive Meetings** workshop equips you with strategies and tools that can be applied immediately to make your meetings more inclusive, powerful, and productive.

OUR MEETINGS APPROACH EMBODIES THREE VALUES.

coherence

because we believe that individuals, teams, and organizations thrive when they function interdependently, and each can contribute to their fullest potential.

diversity & inclusion

because we believe the key to all sustainable and meaningful change comes from engaging diverse perspectives and insight.

collective wisdom

because we believe that the wisdom of any given group or team far exceeds that of any one individual in that group and also exceeds the sum of its parts.
